# Oman

The future of logistics in the Middle East

**Oman is an Arab country located at the South Eastern Coast of the Arabian Peninsula**

- With water on three sides and at the mouth of the Persian Gulf, the strategic position of Oman has allowed the country to serve as a transport and logistic hub since ancient times.

- With massive investments in growth of air, sea, road, and rail transport, Oman is all set to become the logistics hub of the Middle East, according to experts.

- Oman is also developing its infrastructure, resources, and manpower.

- Currently, Duqm, Sohar, Salalah, and Muscat are the major ports, where we have offices already set up.

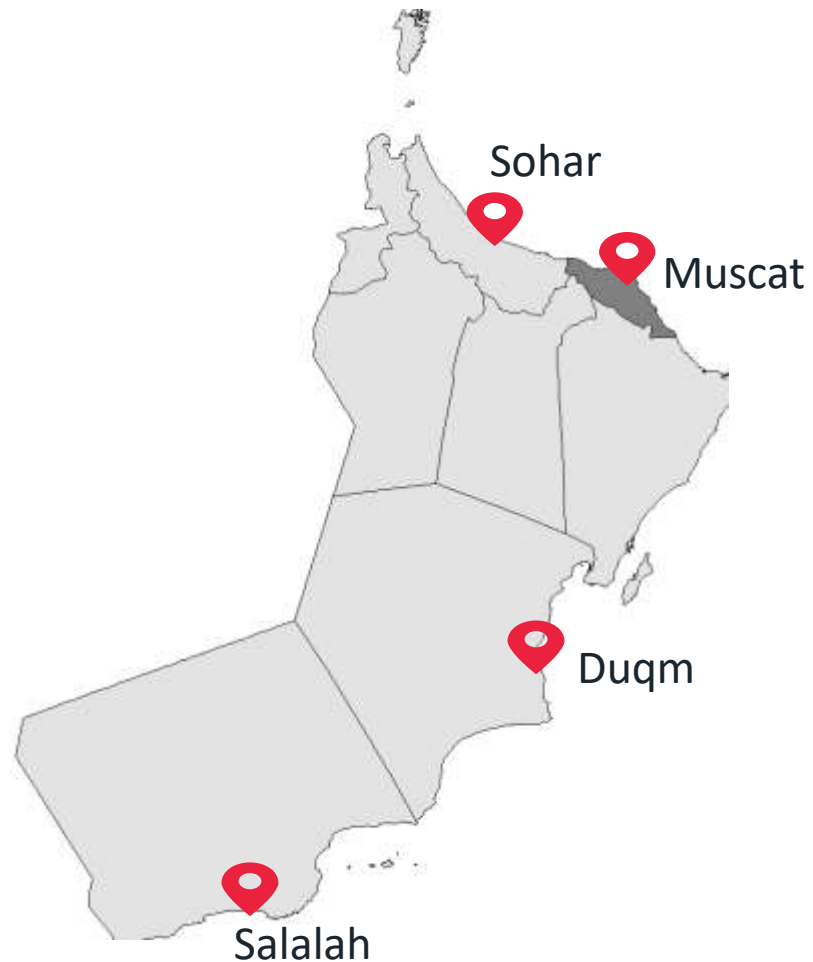

- Oman's logistic development is centered around the Khazaen Project, a central hub for business and logistic activities in the future.
